* The Supreme wall garden Kit comes complete with The shelving shown in The catalogue.

** Powdercoating is a baked-on durable finish that will extend the life of the aluminium frame. Powdercoating is available in 8 standard colours.

***The foundation includes 4"x4" pressure treated timber dug in and levelled on a firm foundation. The ground must be level enough to accomplish this with one layer of timer around the entire perimeter. A site evaluation may be necessary to confirm these quotes.

The foundation fee is payable with the installation fee at the time of installation.
